OVERVIEW

US Luminaire's advanced volumetric troffer retrofit kit easily converts 2x2 and 2x4 fluorescent troffers to the most current LED technology. It is an LED troffer retrofit that comes completely assembled as a lensed kit, requiring only one minute to install while utilizing the existing fixture housing for minimal waste. The kit provides all the components needed to perform the change-out quickly and efficiently, allowing for system upgrades without disturbing the ceiling. Ideal applications include office, retail, healthcare, education and hospitality interiors.

FEATURES

- 0-10V dimming
- Fast installation
- Battery backup available
- Premier optics
- THD <20%
